

Carpet Cleaning Preparation

Modernistic has been Michigan's most trusted residential carpet cleaner for more than 35 years. We offer an online appointment system and a free carpet cleaning price estimate that ensures a quick and easy carpet cleaning quote. Modernistic offers online carpet cleaning coupons to help Michigan homeowners save money in today's tough economy.

Preparation for Carpet Cleaning

- Pick up shoes and items off the carpets that are being cleaned. This includes closet space.
- To prevent fabrics from bleeding onto the carpeting it is advised that draperies or skirts on upholstery are "pinned" up off the floor.
- Remove area rugs that are not scheduled to be cleaned.
- Inform the technician of any spots, seams, tears, or ripples
- Modernistic may not be able to attain a 100% success rate on urine stains or odor due to contamination. Heightened odor levels may be experienced up to a few days after our cleaning because of the extra humidity in the air.
- Please remove any breakables from any items that may be affected during the carpet cleaning process.
- Advise our technicians on special requirements regarding your furniture
- Move any pianos, china cabinets, and beds with headboards, entertainment centers, and fragile antiques because they cannot be moved by our technicians.
- Write down any questions you have prior to our visit. Please refer to them for all your questions and concerns.
- If you have previously treated your carpet, let the technician know what products you have used to treat your carpet, upholstery, or tile as it may help him with the removal process.
- Vacuum the area before we arrive. This will make the carpet cleaning process more successful.
- Place pets in a quiet area where our cleaning process will not bother them.
- Please keep an eye on any toddlers you have during our visit.
- Have coupons or gift certificates available for when the technician arrives to your home.
