

Fresh and natural... it's what makes us better.

We opened our first location in 2007 because we believed there was better way to make pizza.

Our loyal customer following tells us we that were right. We still continue our purssuit for a "better way" with the addition of healthier, more natural ingredients that are:

- Nitrate Free
- Hormone Free
- Antibiotic Free
- Preservative Free

Plus we've added:

- Organic Red Sauces
- More Locally Sourced Ingredients
- More Whole Grains

Being one of the first to offer more natural pizza ingredients has been quite an undertaking... but we think you're worth it.

*Because we believe what's not in our food,
is just as important as what is.*
